

There's Always an Alternative

A range of **food & drinkware products** designed to be kinder to our planet

Geiger
Brandspiration.

Making the switch to becoming an environmentally responsible brand is about more than using trendy eco wording, it's about making long-term, sustainable goals.

It's important to understand what these terms really mean so that your brand can position itself authentically.

You will find these roundels on each page so you can quickly identify the product's eco credentials.

Please note:

Wherever you see the Geiger logo on a product is one of the many places you can print your logo.

Please contact us to find out all the branding possibilities on any of the products featured in this catalogue.

Products that can be used repeatedly. Use over disposable products to reduce the amount of waste and help sustain the environment for future generations.

A biodegradable product has the ability to break down, safely and relatively quickly by biological means, into the raw materials of nature and disappear into the environment.

Fairtrade changes the way trade works through better prices, decent working conditions and a fairer deal for farmers and workers in developing countries.

Recyclable materials are made of raw materials that can be reprocessed and used again. Such materials include glass, paper, metal, and limited types of plastic.

Organic materials do not rely on synthetic pesticides, herbicides and fertilizers that can deplete the soil of valuable nutrients and increase environmental degradation.

Recycling is the process of collecting and processing materials that would otherwise be thrown away as trash and turning them into new products. Recycling prevents and reduces the consumption of fresh raw materials.

Ethical materials products are manufactured without using process material, person or animal in an unethical or immoral way.

Renewable materials are great for the environment as the natural resource can replenish itself generation after generation.

Social enterprises are businesses that put the interests of people and planet ahead of shareholder gain. These businesses are driven by a social/environmental mission and reinvest profits into creating positive social change.

Working with sector partners, we lead the way in formalising an agreed definition of what constitutes genuine social enterprise, the essence of which has since been adopted in several other countries.

Borosilicate glass is a great sustainable alternative to single-use plastics as it is extremely durable and able to withstand hot and cold temperatures. It is also made from naturally abundant materials so the impact to the environment is smaller.

Ukiyo Glass Hydration Tracker Bottle

Track your daily hydration goals with this cleverly designed Ukiyo borosilicate glass 600ml water bottle. The lid displays a bigger water drop each time you refill and twist the collar so you can easily keep count of the number of bottles you drink.

Ukiyo Glass Cup

The cup has a nice grip and a slim shape. A small vent in the lid allows steam to escape to prevent pressure build-up.

Strass Tumbler

Borosilicate glass tumbler with silicone protective sleeve and with bamboo lid and straw. Capacity: 450ml.

Shaumar Bamboo Bottle

Borosilicate glass bottle with bamboo cover and lid and measurement detail.

Bamboo can grow up to 1 metre a day and as soon as it is harvested it begins regrowing from it's own root system - it doesn't even need replanting.

Cupple

Cupple, a twist together water bottle and lidded cup in one. The combination allows you to stay hydrated on the go and have a spontaneous takeaway coffee without creating more throw-away waste.

Coffee cup and silicon lid are hidden within the outer sleeve: this unique design ensures the lid is kept clean and hygienic at all times. Bottle is light weight, single walled and 252ml. The cup is double-wall insulated and 340ml.

Made from a minimum of 50% recycled steel and fully recyclable at end of first life.

Available in a range of colours.

Savannah Lunch Box
Stainless Steel lunch box with bamboo lid and 2 cutlery utensils with attachable polyester band. Capacity 600ml.

Bamboo Lunch Box
Bamboo lunch box with removable divider and attachable elastic nylon strap. Dry food only. Capacity: 1000ml or 650ml.

Tundra Lunch Box
Lunch box in glass with bamboo lid and silicone band. Capacity 900 ml.

Black+Blum Stainless Steel Lunch Box

A 1 litre / 34 fl oz stainless steel lunch box that is the first 100% leakproof one on the market due to having a secure vacuum-sealed closure. Oven and freezer safe. Includes fork and adjustable internal divider.

Black+Blum are a London based design company who produce high quality, environmentally friendly food and drinkware. They are members of '1% for the Planet' which means they commit to giving at least 1% of their sales revenue to the environmental charities 'City Harvest' and 'Trees for Cities'.

Black+Blum Original Lunch Box

A 1 L / 34 fl oz lunch box that makes it easy to organise your lunch and presents your food beautifully. 100% leakproof. Includes stainless-steel fork, inner compartment and leak-proof sauce pot. Microwave* (some parts), dishwasher and freezer safe. BPA free.

Black+Blum Eau Good Bottle
An 800ml / 27 fl oz bottle that filters your tap water using a traditional Japanese Binchotan charcoal method for a cleaner, purified taste. Removes Chlorine and adds Minerals. Natural Water Filter lasts for 6 months (replacements available). 100% leakproof. BPA Free.

Black+Blum Insulated Bottle
Keep your drinks cold for up to 24hrs or hot for up to 12hrs in our Insulated Water Bottle. The wide opening allows for easy pouring and cleaning and also accommodates our Binchotan charcoal filter as well as ice-cubes. The vegan leather strap is attached to the stainless steel top so you won't lose it. Our signature style bottle neck has the thread on the inside of the bottle, giving a smooth and comfortable opening from which to drink. Available in 2 sizes (500ml and 750ml).

Ocean Bottle

When you buy an Ocean Bottle, you fund the collection of 1000 ocean-bound plastic bottles before they reach the water. Locals in coastal communities exchange this plastic for money through a regulated banking system so they can get access to microfinance, tuition, healthcare and other things they need.

And you get an award-winning reusable bottle for life.

Ocean-bound plastic is defined as mismanaged plastic waste (or MMPW) that ends up along coastlines, in rivers and waterways within towns, cities and rural areas. When the seasonal rain arrives, this plastic gets flushed into the ocean often because of a lack of recycling infrastructure. So far plastic collection and recycling hasn't kept up with the production of plastic products, leading to a waste crisis.

These bottles are made from Prevented Ocean Plastic. Plastic is collected within 50 km of an ocean coastline or major waterway that feeds into the ocean. This is then sorted and transformed into high quality, food-safe recycled plastic. The black lid is made from in-house pre-consumer recycled plastic.

H2O 650ml Flip Lid

H2O 650ml Spout Lid

H2O 650ml Dome Lid

H2O 65ml Screw Cap Lid

**Americano Renew
Insulated Tumbler**

Double-wall insulated tumbler with a secure twist-on spill-proof lid and 350ml capacity. Contains 25% plastic derived from sugarcane. The tumbler is 100% recyclable and packed in a home compostable bag. Made in the UK.

Sugarcane is a renewable resource that contributes to the reduction of greenhouse gas emissions. As the sugarcane grows, the plant removes CO2 from the air. The sugarcane extract is used to make ethanol, which we use to make green polyethylene that is 100% recyclable.

Shiva O2 Bottle

This bottle is 100% biobased made from sugarcane. Available in 500ml and 750ml with sports cap lid.

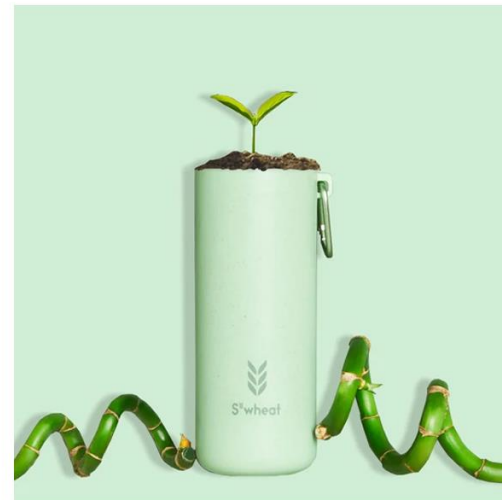

S'Wheat Bottle

S'wheat is an award-winning reusable water bottle, made from plants. Suitable for both hot and cold drinks.

For every S'wheat bottle sold, we'll plant one tree and remove 20lbs of plastic from our oceans. When you buy a S'wheat bottle you'll receive your very own traceable tree which you can monitor the growth of.

Our core mission is to protect the oceans from plastic pollution. We also donate a % of profits to protect our sea life. Through our sweet and sustainable products we aim to redefine the future.

We also want to disrupt the plastic industry and encourage others to do the same. That's why we don't use any form of plastics when shipping our S'wheat bottles.

Amuse Bio Clip Lunch & Snack Boxes

The 250ml Bio clip snack boxes and 700ml lunch boxes are made of 37% sugarcane, a sustainable and renewable raw material. These are the best eco-friendly alternatives to traditional plastic boxes. On the side there is a sturdy clip that keeps the boxes closed securely when on the go. Dishwasher safe. BPA-free.

BE O Bottle

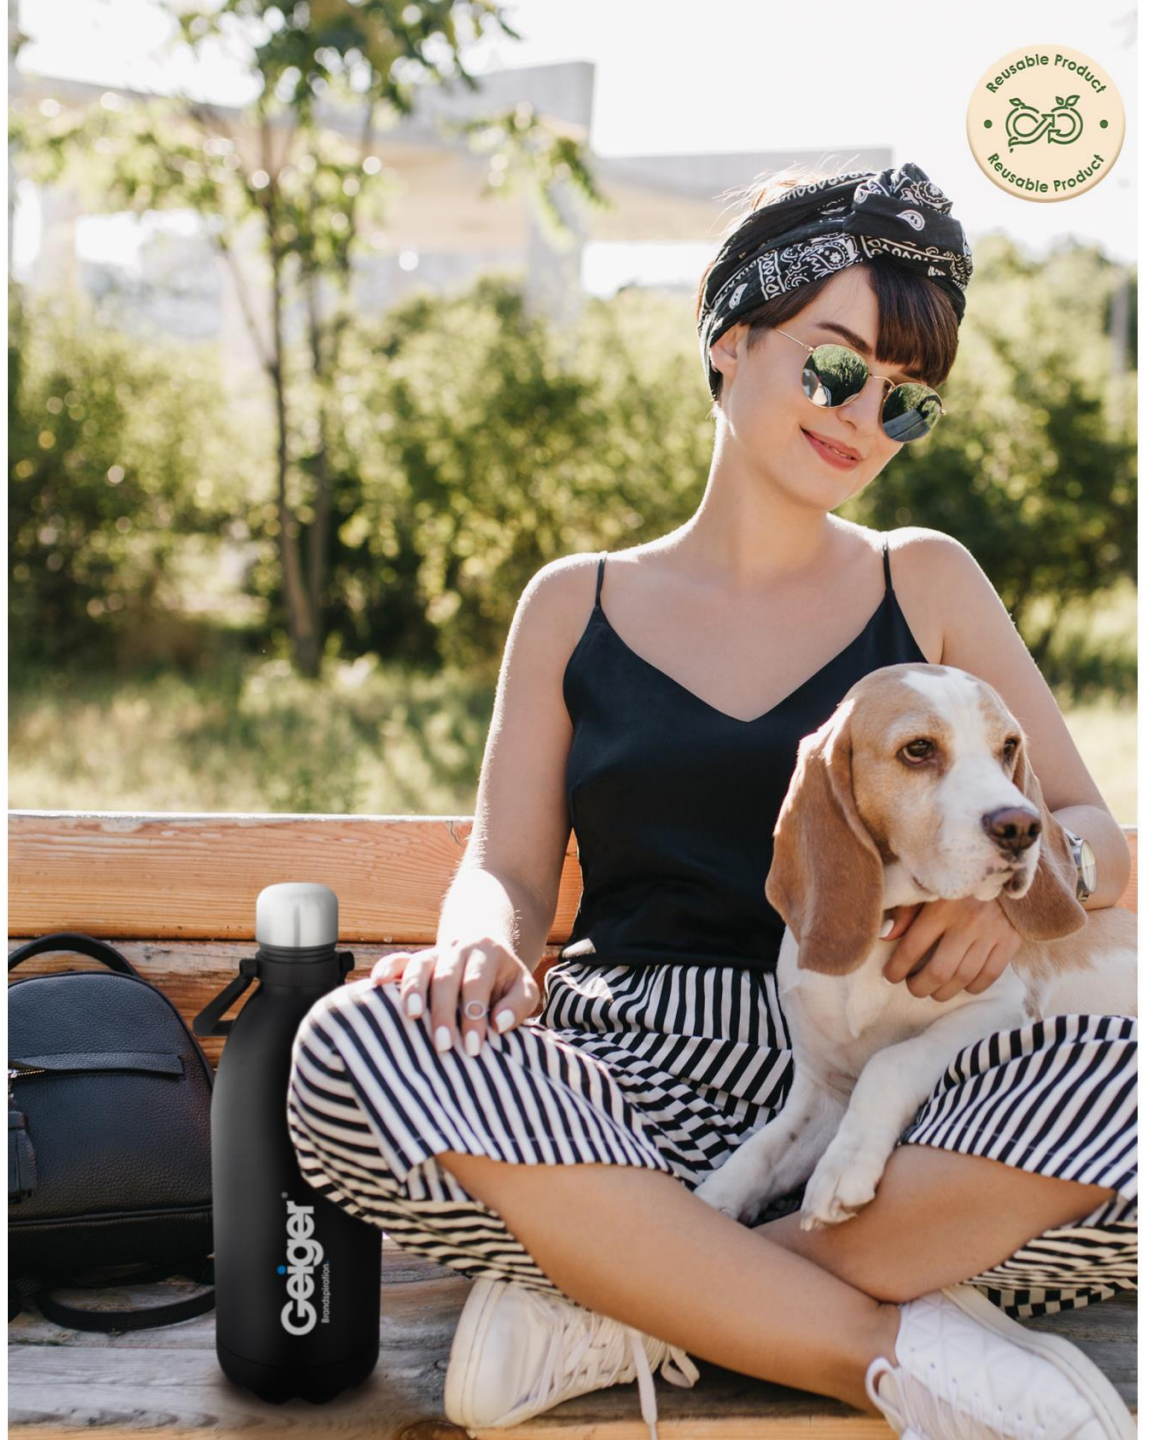

The BE O bottle is a water bottle made of sugarcane. It is oil free plastic that's better for the planet. A super handy design, making the bottle easy to carry, clean and store. Designed & made in the Netherlands, and fully recyclable. Each bottle has a -80 gram CO2e positive impact on our planet. We make an even bigger impact by planting a tree for every BE O bottle you buy. 500ml content.

Cove Extra Large 1.5L Insulated Water Bottle
Extra large vacuum insulated stainless steel bottle with an iconic design featuring a comfortable handle for easy carrying. The insulated 18/8 stainless steel keeps drinks hot or cold for several hours.

Spring 1L Insulated Water Bottle
Copper vacuum insulated stainless steel bottle with clean design and large area for decoration. The insulated 18/8 stainless steel construction prevents condensation on the inside of the bottle, and the on-trend matte powder-spray finish makes it extra durable.

Give Me Tap

These bottles change lives.

663 million people lack access to clean water. How this is possible in today's world makes zero sense to us.

By working with the most effective organisations and NGO's, we can provide life changing access to clean water for those who really need it.

We believe in a simple idea: 'Water for everyone'.

Every bottle sold provides clean drinking water to someone living in Africa for up to 10 years. In practice, how this works is that for every bottle sold, we donate directly to our NGO partners in Africa to install pumps in rural communities.

Give Me Tap 500ml Bottle

Designed so that you can enjoy your drinks the way you want all throughout the day, because our bottles keep liquids cold for 24 hours and hot for 12 hours. Made from double-layered medical-grade stainless steel, this helps you eliminate your dependency on plastic without having to use another plastic reusable container. Perfect for taking on-the-go. Various colour options available.

Give Me Tap Original 500ml Bottle

Designed to fit neatly into your bag or car cup holder, this is our most popular bottle yet. Perfect for taking on-the-go, our EasyTwist cap means you can open the cap in less than one turn.

Give Me Tap 700ml Bottle

Designed so that you can enjoy your drinks the way you want all throughout the day, because our bottles keep liquids cold for 24 hours and hot for 12 hours. Made from double-layered medical-grade stainless steel, this helps you eliminate your dependency on plastic without having to use another plastic reusable container. Perfect for taking on-the-go.

Cork is considered eco because the extraction process doesn't harm the tree, making it a completely renewable and sustainable resource.

Cork Coffee Cup

The exterior of the mug is made from 100% FSC-certified cork, which is both biodegradable and renewable. The interior of the mug is made from a compostable material called polylactide (PLA). The two are fused together using a patented technique (that doesn't involve glue) to create a double wall that's not only sustainable but also keeps your drink warm for hours.

Cork Base Tumbler

Double wall stainless steel tumbler with cork base and sliding sip hole cover.

Ocre Bamboo Tea Box

Bamboo tea box with transparent glass lid. Features 6 equally divided compartments to hold up to 36 tea bags.

Campo Bamboo Tea Box

Bamboo tea box with transparent glass lid. Features 4 equally divided compartments to hold up to 24 tea bags.

By using responsibly sourced oak, you're using a product that is highly sustainable. Oak is an amazing wood to use in all sorts of products as it is extremely durable - so sturdy that it is even used in buildings. You can find oak structures that have lasted hundreds of years!

Natural Oak Mug

Full oak wooden mug. Capacity 280ml. Drink your favourite coffee, tea or hot chocolate from this beautiful classic designed natural mug made from oak wood. This mug is definitely an eye catcher with its unique wooden look.

Natural Oak Tumbler

Full oak wooden mug. Capacity 250ml.

Lidan Glass & Cork Tumbler

Single-walled borosilicate glass tumbler with a smooth cork grip. Features a removable food safe silicone lid. The tumbler is made from 100% durable borosilicate glass which conserves the freshness of the beverage, and it does not contain any harmful chemicals. Fits under most coffee machines, making it the perfect tumbler for work or when on-the-go. Volume capacity is 360 ml. By removing the cork grip the tumbler is dishwasher safe.

Cork Coaster Games

Set of 4 coasters made of cork and MDF including a 4 game set: Tic-Tac-Toe, Backgammon, Chess and Chinese checkers. When the coasters are not in use to hold glasses or other drinkware, you can play one of these 4 fun games on them.

Thank you.
