

# *There's Always an Alternative*

A range of **tech products** designed to be kinder to our planet

Making the switch to becoming an environmentally responsible brand is about more than using trendy eco wording, it's about making long-term, sustainable goals.

It's important to understand what these terms really mean so that your brand can position itself authentically.

You will find these roundels on each page so you can quickly identify the product's eco credentials.

**Please note:**

Wherever you see the Geiger logo on a product is one of the many places you can print your logo.

Please contact us to find out all the branding possibilities on any of the products featured in this catalogue.

Products that can be used repeatedly. Use over disposable products to reduce the amount of waste and help sustain the environment for future generations.

A biodegradable product has the ability to break down, safely and relatively quickly by biological means, into the raw materials of nature and disappear into the environment.

Fairtrade changes the way trade works through better prices, decent working conditions and a fairer deal for farmers and workers in developing countries.

Recyclable materials are made of raw materials that can be reprocessed and used again. Such materials include glass, paper, metal, and limited types of plastic.

Organic materials do not rely on synthetic pesticides, herbicides and fertilizers that can deplete the soil of valuable nutrients and increase environmental degradation.

Recycling is the process of collecting and processing materials that would otherwise be thrown away as trash and turning them into new products. Recycling prevents and reduces the consumption of fresh raw materials.

Ethical materials products are manufactured without using process material, person or animal in an unethical or immoral way.

Renewable materials are great for the environment as the natural resource can replenish itself generation after generation.

Social enterprises are businesses that put the interests of people and planet ahead of shareholder gain. These businesses are driven by a social/environmental mission and reinvest profits into creating positive social change.

Working with sector partners, we lead the way in formalising an agreed definition of what constitutes genuine social enterprise, the essence of which has since been adopted in several other countries.

**Xoopar Mr Bio Power Pack**  
The set includes a 5,000 mAh powerbank and our latest multi charging cable, the Xoopar Mr. Bio Long. Made from biodegradable plastic and wheat.

### W Two Cable

This 2 meter long multi-connector charging cable is made from eco-friendly materials: easily recyclable rPET material on the cable and connectors of biodegradable plastic with wheat fibres for faster biodegrading.

## Xoopar Trafold 3
